

KREHALON FLO21 FILMS

Heat shrinkable films for the FLOVAC
and flow wrapping processes

FLO21 FILMS

FLO21 are a multilayer heat shrinkable range of films using innovative proprietary technology, for flow wrapping and tray lidding applications. Its' patented structure enables a unique combination of gas and moisture barrier with excellent sealability on a wide range of flow wrapping and tray-seal machinery and ideal for wrapping irregularly shaped products. With its special optical properties, controlled barrier and high shrink KREHALON FLO21 films bring glass-like, clear presentation as well as protection to all of your products.

Types

FEATURES AND BENEFITS

Clarity and gloss

For MAP retail packs, FLO21 offers brilliant clarity and gloss for a glass-like, clear view of your retail food product.
For Modified Atmosphere Packaging (MAP) excellent anti-fog (AF) properties are provided.

Excellent EVOH barrier

Our FLO21 films preserves the quality of your product from the point of packaging to the ultimate consumer.

Excellent sealability and machinability

KREHALON FLO21 films have a wide sealing range that can run on most HFFS flow wrapping and tray lidding machines, ensuring high packing speeds and reduced leakers.

High strength

FLOVAC films have superior abuse resistance ensuring reduced leakers for hard or bone-in products, which benefits customers with less wastage and fewer pack returns.

Controlled shrinkability

KREHALONS' innovative proprietary technology allows controlled shrinkage for various applications from low shrink to high shrink, subject to application and customers demand.

Environmentally friendly

Our patented, chlorine-free film technology can provide significant material thickness savings over the competition.

Printing and coloring

Our printing department is equipped with a fully automated flexographic printing press, which is suitable for all types of our proprietary technology materials and can print up to 10 colours, in register on both sides. Many years of experience in printing thermoformable and/or shrinkable materials result in a superior print expertise, ensuring optimal quality and flexibility.

FLO21 films are available in clear and also a wide range of pigmented colours.

Our packaging performance gives your branded product an outstanding appearance.

That is why partnering with KREHALON is proven to deliver sustainable long term commercial gains.

Shrink Bag Replacement

Seal of Quality

Krehalon are manufacturers and distributors of high quality shrink and non-shrink barrier films, bags and casings to the fresh food industry.

With over 40 years' experience, our depth of experience in shrink barrier packaging is unrivalled, enabling us to deliver innovative and automated product presentation solutions that help our customers reduce costs while maximizing shelf life and visual appeal.

Our expert approach to production and automation, packaging and presentation solutions, quite literally makes us stand out.

We focus on sustainable, operational efficiencies and long-term commercial gains for our customers.
That's why partnering with us is proven to deliver sustainable, long-term commercial gains for our customers.

Krehalon are the seal of quality in the fresh food packaging industry.
